

Liferay Upgrade & Migration Analysis Program

IT ALL STARTS WITH A PLAN

Projects become much easier when a plan is in place. Liferay Upgrade & Migration Analysis Program is designed to provide a master plan to upgrade your Liferay Portal project to our digital experience platform (DXP) and migrate it to our DXP Cloud platform. Not only will your users enjoy all the new and refined features of Liferay DXP, your system team will also find the DXP Cloud platform straightforward to leverage. Our Global Services team has worked on a variety of Portal migration projects and has the expertise in creating defined plans that identify the upgrade and migration path, risk mitigation strategy and enhanced solution options for your transition to the latest version of Liferay DXP hosted on DXP Cloud.

Liferay provides full implementation services under a separate program. For additional details, please contact your account manager.

TAKE FULL ADVANTAGE OF MODULARITY

Liferay DXP is built on a new architecture that provides true modularity to better organize project artifacts. Our Global Services team has valuable experience and insights to guide your effort in leveraging this new architecture. A clear and logical workspace will reduce project complexity and can greatly improve the developer experience as well, not just your end users.

FOCUS ON THE BUSINESS

The DXP Cloud platform simplifies the maintenance and operations of running your Liferay DXP solution, freeing your system team to focus on other strategic initiatives for your business. Our Global Services team has the experience and expertise to guide the project migration, helping to bring the benefits of DXP Cloud to your team much more efficiently.
